Homepage

Login Or Create An Account

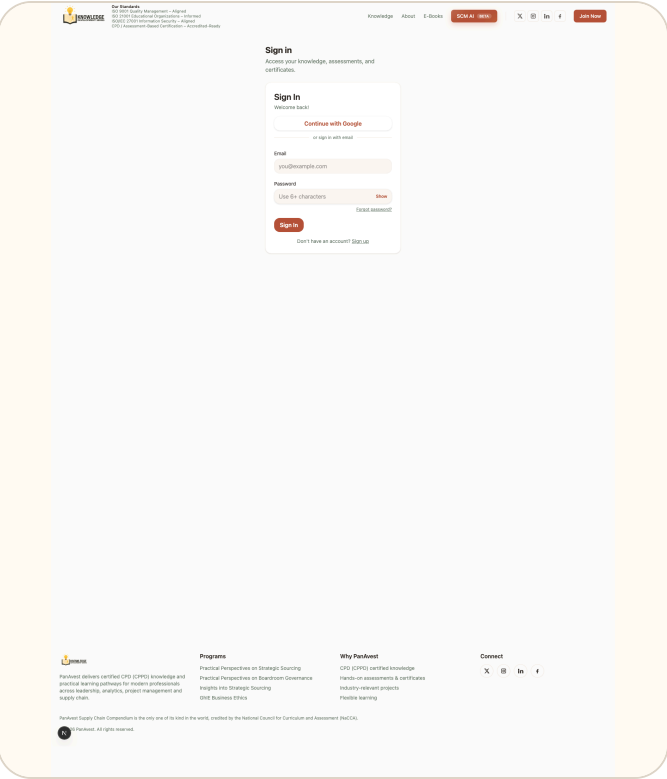

The platform gives returning learners a direct sign-in path and gives new users a short guided registration flow.

How to use it

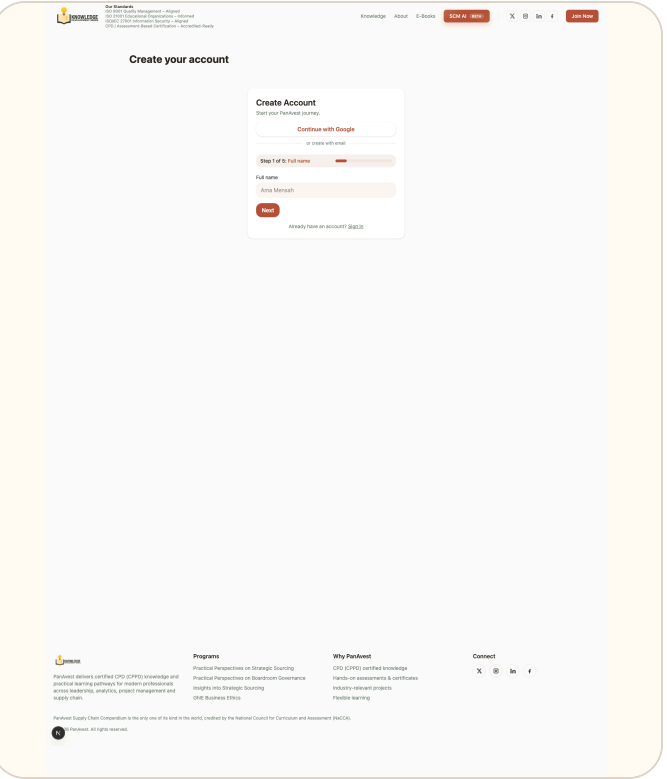

- 1. Open the website and click **Sign in**.
- 2. Choose Google sign-in or use email and password.
- 3. New users can switch to **Create your account** and complete the guided sign-up steps.

The sign-up flow collects full name, date of birth, education level, country, email, and password before account activation.

Sign up

Browse Knowledge Programs

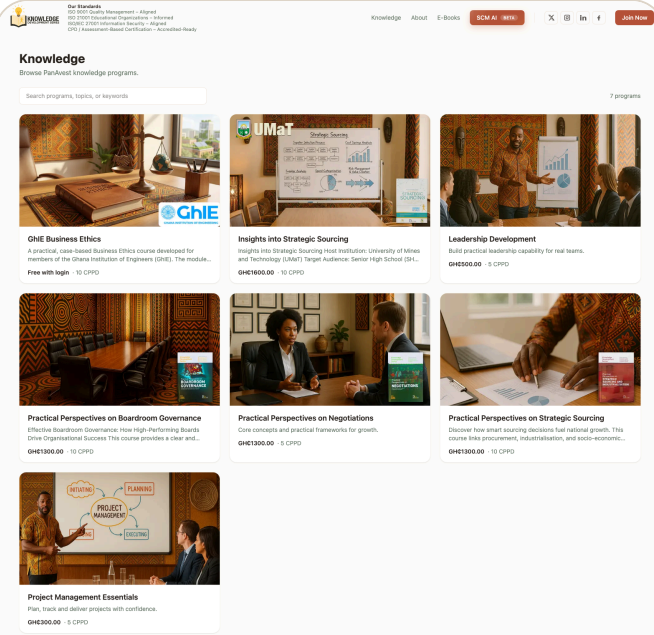

Learners browse the Knowledge catalog, open a course page, and see the description, pricing, CPPD points, and the **Enroll (Mobile Money/Card)** action.

How to use it

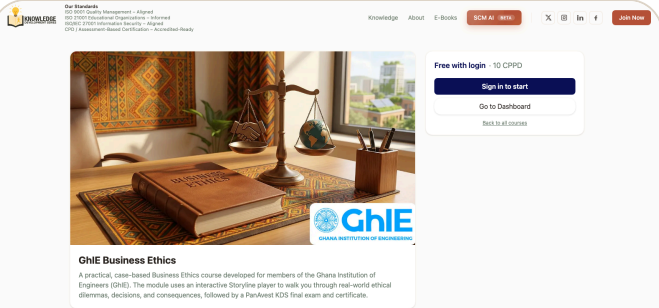

- 1. Open **Knowledge** from the main navigation.
- 2. Browse the available programs and choose one.
- 3. Open the course detail page to review the summary and decide whether to sign in, enroll, or start learning.

Note: Course detail pages show pricing, bundled access context, and the enrollment action before checkout.

Payment Flow

Paid course enrollment supports **Mobile Money** and **card payments**. E-book purchases use the in-app checkout flow shown here.

How to use it

- 1. Select a paid course or e-book after signing in.
- 2. Review the item, amount, and payment method.
- 3. Complete payment and return to the product page or dashboard with access unlocked.

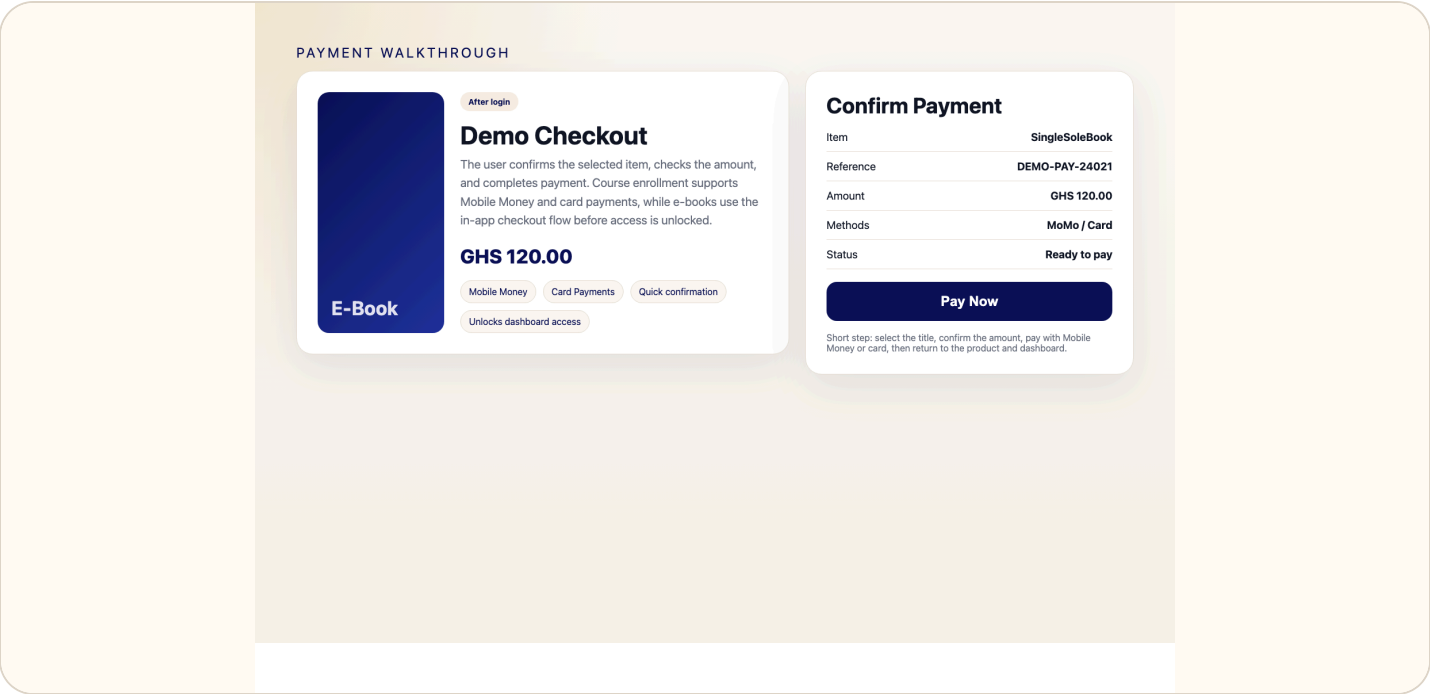

Mobile Money

Card Payments

Fast Access Unlock

Courses are positioned for Mobile Money and card-based enrollment. E-books use a simple on-site checkout handoff for quick confirmation.

Payment confirmation view

E-Books Catalog And Reader Access

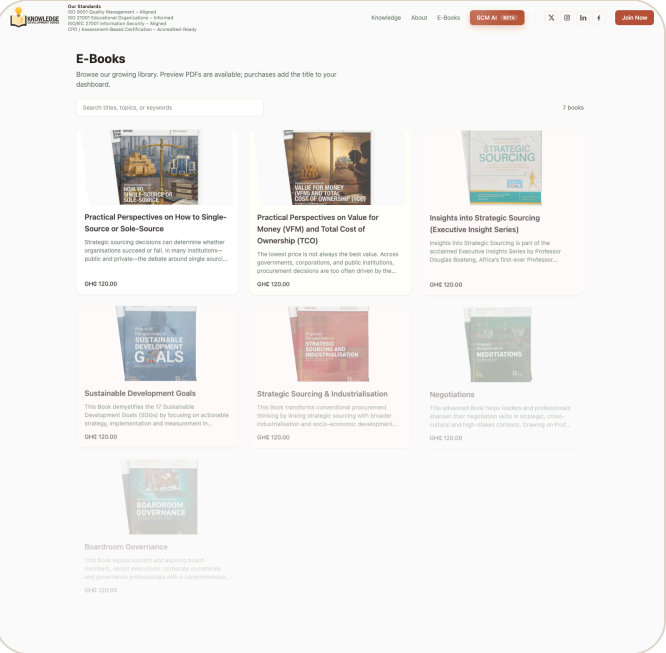

The e-book flow is direct: browse the catalog, open a title, review the price, and sign in to buy or unlock reading access.

How to use it

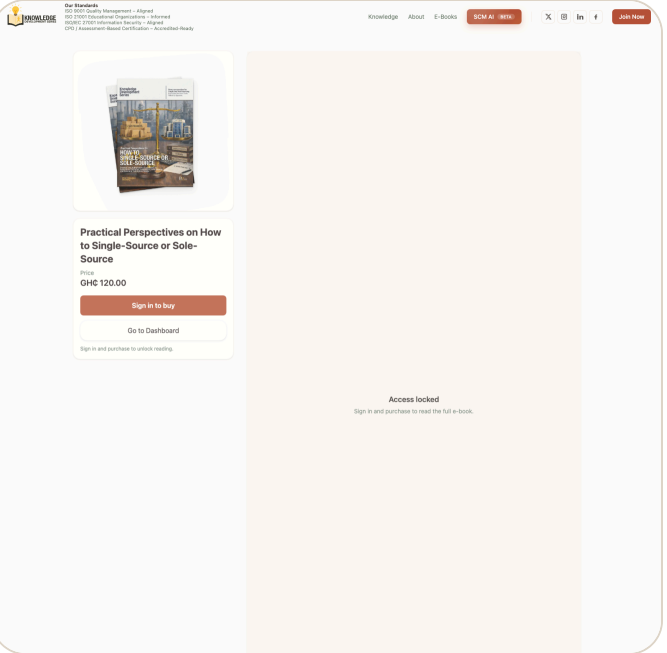

- 1. Open **E-Books** from the top navigation.
- 2. Select a title to view the cover, summary, and access controls.
- 3. Buy the title or open the reader when access is available.

The detail page keeps reading and purchase actions in the same place so the learner does not need extra steps.

Dashboard

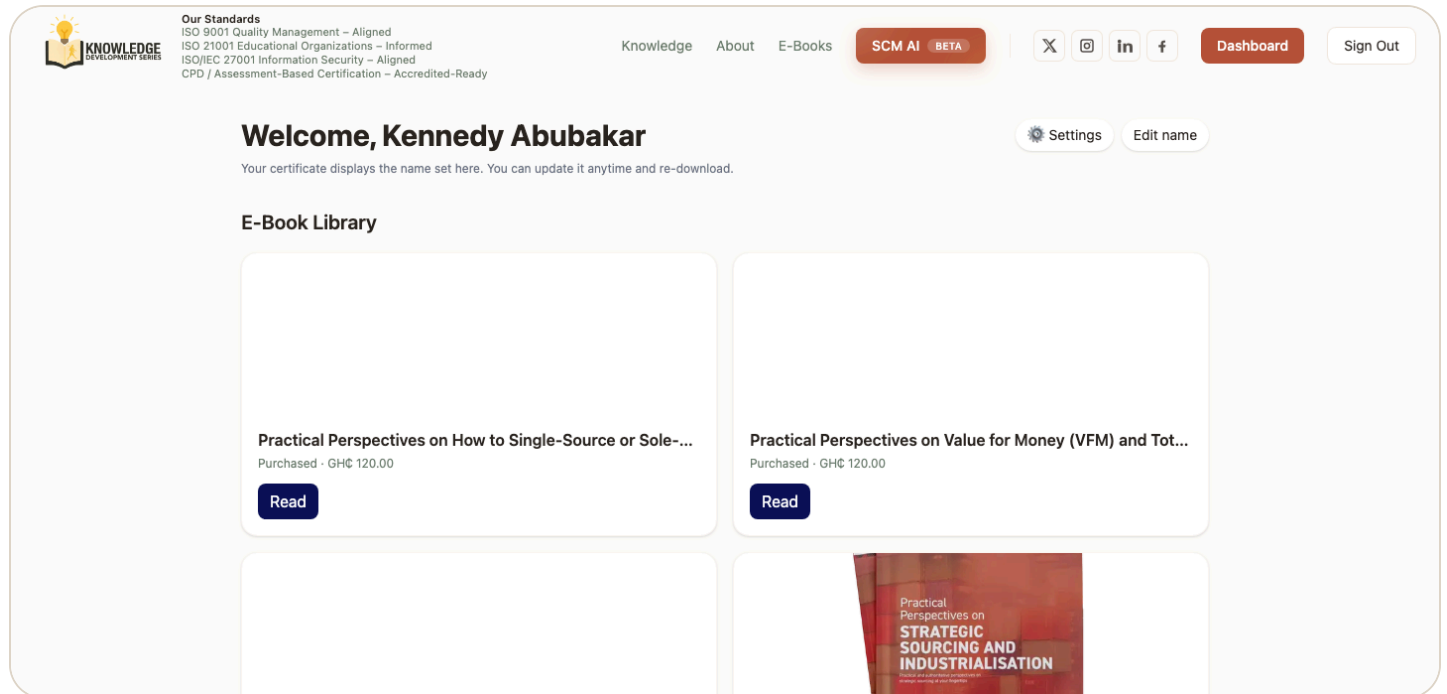

Once the learner is signed in, the dashboard becomes the control center for progress, purchased content, and certificate access.

How to use it

1. Sign in and open **Dashboard**.
2. Review enrolled knowledge programs and progress updates.
3. Open purchased e-books and reach certificates from the same page.

The dashboard also stores the learner name used on certificates and keeps course and e-book access in one place.

Dashboard overview

Certificates And Verification

After course completion and assessment success, the learner can preview, download, and verify a certificate with a reference number and QR area.

How to use it

1. Complete the course and pass the final assessment.
2. Open the certificates area from the dashboard.
3. Preview, download, or share the verification link and certificate number.

The certificate preview includes the learner name, course title, issue date, certificate number, and a verification QR section.

SUMMARY

Platform Highlights

This short deck follows the learner path from first visit to proof of completion and highlights the standards and payment options you asked to include.

ISO Standards

ISO 9001 Quality Management aligned, ISO 21001 Educational Organizations informed, and ISO/IEC 27001 Information Security aligned.

Login

Returning learners can sign in quickly, while new users complete a short guided registration flow.

Courses

The Knowledge catalog leads into course detail pages with pricing, CPPD points, and clear enroll or start actions.

E-Books

The e-book catalog supports browsing, reviewing a title, buying it, and opening the reader from the same journey.

Payments

Paid access is presented with Mobile Money and card payment paths so learners can complete checkout without unnecessary steps.

Dashboard And Certificates

The dashboard consolidates progress, purchased content, and certificate preview or download after completion.
